AMIT CHAUHAN

Software Engineer | AI Developer

Email: amitchn28@gmail.com | Location: Mumbai, India | Portfolio: https://amiiit-portfolio.vercel.app

---

EDUCATION

Bachelor of Engineering in Computer Engineering (2023 - 2027)
ARMIET, University of Mumbai
Specialization: Full-Stack Systems, Distributed Systems, Machine Learning

TECHNICAL SKILLS

- Languages: C++, Java, Python, JavaScript, TypeScript, SQL
- Frontend: React.js, Tailwind CSS, Vite, Framer Motion
- Backend: Node.js, Express.js, REST APIs, Microservices Architecture
- Databases & Cloud: PostgreSQL (Neon), MongoDB, Prisma ORM, Docker, Vercel, Render

PROJECT HIGHLIGHTS

1. Hybrid Quantum Machine Learning Pipeline
   - Developed quantum-classical neural network architectures optimizing parameter convergence.
2. Medical Image Processing (CNN)
   - High-precision medical imaging classifier utilizing PyTorch and transfer learning.
3. Cloud Portfolio & Custom Headless CMS Monorepo
   - Scalable full-stack monorepo with automated deployment, Argon2 JWT authentication, and Neon PostgreSQL.

ABOUT

Passionate computer engineering student dedicated to building high-performance, resilient systems and meaningful AI solutions. Available for software engineering and machine learning opportunities.
